REVIEWS

The adipocyte life cycle hypothesis

by J. Smith, M. Al-Amri, P. Dorairaj and A. Sniderman

1–9

Published on the Internet 12 December 2005, doi:10.1042/CS20050110

Antibody- and Fc-receptor-based therapeutics for malaria

by J. Shi, R. S. McIntosh and R. J. Pleass

11–19

Published on the Internet 12 December 2005, doi:10.1042/CS20050136

SLPI and elafin: one glove, many fingers

by S. E. Williams, T. I. Brown, A. Roghanian and J.-M. Sallenave

21–35

Published on the Internet 12 December 2005, doi:10.1042/CS20050115

Gene therapy for neurodegenerative and ocular diseases using lentiviral vectors

by G. S. Ralph, K. Binley, L.-F. Wong, M. Azzouz and N. D. Mazarakis

37–46

Published on the Internet 12 December 2005, doi:10.1042/CS20050158

Short interfering RNA (siRNA): tool or therapeutic?

by D. Cejka, D. Losert and V. Wacheck

47–58

Published on the Internet 12 December 2005, doi:10.1042/CS20050162

Therapeutic vaccination against HIV: current progress and future possibilities

by R. L. Puls and S. Emery

59–71

Published on the Internet 12 December 2005, doi:10.1042/CS20050157

Pharmaceutical, cellular and genetic therapies for Huntington's disease

by O. J. Handley, J. J. Najji, S. B. Dunnett and A. E. Rosser

73–88

Published on the Internet 12 December 2005, doi:10.1042/CS20050148

COMMENT

What role do adrenoreceptor polymorphisms play in modifying cardiovascular responses in obstructive sleep apnoea?

by N. McArdle (see accompanying paper, pp. 117–123)

89–91

Published as Immediate Publication 16 November 2005, doi:10.1042/CS20050295

PAPERS

Synthesis rates of total liver protein and albumin are both increased in patients with an acute inflammatory response

by H. Barle, F. Hammarqvist, B. Westman, M. Klaude, O. Rooyackers, P. J. Garlick and J. Wernerman

93–99

Published as Immediate Publication 6 September 2005, doi:10.1042/CS20050222

- Reduced glomerular filtration rate in pre-dialysis non-diabetic chronic kidney disease patients is associated with impaired baroreceptor sensitivity and reduced vascular compliance**
by P. Lacy, S. J. Carr, D. O'Brien, B. Fentum, B. Williams, S. K. Paul and T. G. Robinson 101–108
Published as Immediate Publication 19 September 2005, doi:10.1042/CS20050192
- Diastolic dysfunction is associated with anaemia in patients with Type II diabetes**
by P. M. Srivastava, M. C. Thomas, P. Calafiore, R. J. MacIsaac, G. Jerums and L. M. Burrell 109–116
Published as Immediate Publication 26 September 2005, doi:10.1042/CS20050184
- Modifying effects of the R389G β_1 -adrenoceptor polymorphism on resting heart rate and blood pressure in patients with obstructive sleep apnoea**
by J. Börgel, T. Schulz, N. K. Bartels, J. T. Epplen, N. Büchner, L. C. Rump, A. Huesing, B. M. Sanner and A. Mügge 117–123
Published as Immediate Publication 26 August 2005, doi:10.1042/CS20050244
- A novel mutation in the cardiac myosin-binding protein C gene is responsible for hypertrophic cardiomyopathy with severe ventricular hypertrophy and sudden death**
by T. Konno, M. Shimizu, H. Ino, N. Fujino, K. Uchiyama, T. Mabuchi, K. Sakata, T. Kaneda, T. Fujita, E. Masuta and H. Mabuchi 125–131
Published as Immediate Publication 26 September 2005, doi:10.1042/CS20050189
- Manipulation of systemic oxygen flux by acute exercise and normobaric hypoxia: implications for reactive oxygen species generation**
by G. W. Davison, R. M. Morgan, N. Hiscock, J. M. Garcia, F. Grace, N. Boisseau, B. Davies, L. Castell, J. McEneny, I. S. Young, D. Hullin, T. Ashton and D. M. Bailey 133–141
Published as Immediate Publication 3 October 2005, doi:10.1042/CS20050135
