REVIEWS

- Adiponectin: a key adipocytokine in metabolic syndrome**
by Y. Okamoto, S. Kihara, T. Funahashi, Y. Matsuzawa and P. Libby 267–278
Published on the Internet 10 February 2006, doi:10.1042/CS20050182
- Role of osteoprotegerin (OPG) in cancer**
by I. Holen and C. M. Shipman 279–291
Published on the Internet 10 February 2006, doi:10.1042/CS20050175
- Granulocyte apoptosis in the pathogenesis and resolution of lung disease**
by S. M. Bianchi, D. H. Dockrell, S. A. Renshaw, I. Sabroe and M. K. B. Whyte 293–304
Published on the Internet 10 February 2006, doi:10.1042/CS20050178
- Immune responses to *Helicobacter pylori* colonization: mechanisms and clinical outcomes**
by C. Portal-Celhay and G. I. Perez-Perez 305–314
Published on the Internet 10 February 2006, doi:10.1042/CS20050232
- Molecular genetics of human hypertension**
by M. Gong and N. Hubner 315–326
Published on the Internet 10 February 2006, doi:10.1042/CS20050208

COMMENT

- Local inflammation, endothelial dysfunction and fibrinolysis in coronary heart disease**
by G. D. O. Lowe (see accompanying paper, pp. 353–360) 327–328
Published as Immediate Publication 6 January 2006, doi:10.1042/CS20060002

PAPERS

- Influence of central inhibition of sympathetic nervous activity on myocardial metabolism in chronic heart failure: acute effects of the imidazoline I₁-receptor agonist moxonidine**
by R. Mobini, M. Fu, P.-A. Jansson, C.-H. Bergh, M. Scharin Täng, F. Waagstein and B. Andersson 329–336
Published as Immediate Publication 7 October 2005, doi:10.1042/CS20050037
- Expression of adrenomedullin mRNA is altered with gestation and labour in human placenta and fetal membranes**
by A. Al-Ghafra, S. P. Brennecke, R. G. King and N. M. Gude 337–342
Published as Immediate Publication 29 November 2005, doi:10.1042/CS20050303
- Water drinking improves orthostatic tolerance in patients with posturally related syncope**
by V. E. Claydon, C. Schroeder, L. J. Norcliffe, J. Jordan and R. Hainsworth 343–352
Published as Immediate Publication 11 November 2005, doi:10.1042/CS20050279

Vascular and fibrinolytic effects of intra-arterial tumour necrosis factor- α in patients with coronary heart disease

by S. D. Robinson, P. Dawson, C. A. Ludlam, N. A. Boon and D. E. Newby

Published as Immediate Publication 25 November 2005, doi:10.1042/CS20050268

353–360

TNF- α levels are associated with skin capillary recruitment in humans: a potential explanation for the relationship between TNF- α and insulin resistance

by R. G. Ijzerman, J. J. Voordouw, M. M. van Weissenbruch, J. S. Yudkin, E. H. Serné,

H. A. Delemarre-van de Waal and C. D. A. Stehouwer

Published as Immediate Publication 29 November 2005, doi:10.1042/CS20050314

361–368

Side-effects of L-dopa on venous tone in Parkinson's disease: a leg-weighing assessment

by J.-P. Wolf, M. Bouhaddi, F. Louisy, A. Mikehiev, L. Mouroit, S. Cappelle, F. Vuillier, P. Andre, L. Rumbach and J. Regnard

Published as Immediate Publication 22 November 2005, doi:10.1042/CS20050247

369–377

Effect of the angiotensin II receptor blocker olmesartan on the development of murine acute myocarditis caused by coxsackievirus B3

by Y. Seko

Published as Immediate Publication 9 December 2005, doi:10.1042/CS20050299

379–386

A comparison between active- and reactive-hyperaemia-induced brachial artery vasodilation

by J. Padilla, R. A. Harris, A. D. Fly, L. D. Rink and J. P. Wallace

Published as Immediate Publication 15 December 2005, doi:10.1042/CS20050328

387–392
