REVIEWS

Liver fibrosis: cellular mechanisms of progression and resolution

N. C. Henderson and J. P. Iredale

265–280

*Published on the Internet 1 February 2007, doi:10.1042/CS20060242***Steroid-resistant sarcoidosis: is antagonism of TNF- α the answer?**

B. G. Denys, Y. Bogaerts, K. L. Coenegrachts and A. S. De Vriese

281–289

Published on the Internet 1 February 2007, doi:10.1042/CS20060094

PAPERS

Effects of lymphotoxin- α gene and galectin-2 gene polymorphisms on inflammatory biomarkers, cellular adhesion molecules and risk of coronary heart disease

F. W. Asselbergs, J. K. Pai, K. M. Rexrode, D. J. Hunter and E. B. Rimm

291–298

*Published as Immediate Publication 16 October 2006, doi:10.1042/CS20060200***Plasma concentration of Fas/Fas ligand and left ventricular function in response to metoprolol in conjunction with standard treatment**

Y.-p. Hou, J.-l. Wu, Q. Fan, M.-b. Liu, B.-l. Yin and L. Zhang

299–304

*Published as Immediate Publication 5 October 2006, doi:10.1042/CS20060213***Inflammatory biomarkers increase with severity of upper-extremity overuse disorders**

S. J. Carp, M. F. Barbe, K. A. Winter, M. Amin and A. E. Barr

305–314

*Published as Immediate Publication 25 October 2006, doi:10.1042/CS20060050***Administration of brain natriuretic peptide improves cardiac function following operations using extracorporeal circulation in an animal model**

D. H. L. Bail, V. Steger, U. Heinzelmann, S. Schiller, A. I. Geim, B. Brüllmann and G. Ziemer

315–324

Published as Immediate Publication 31 October 2006, doi:10.1042/CS20060136
