REVIEW

Angiotensin II signal transduction through the AT₁ receptor: novel insights into mechanisms and pathophysiology

S. Higuchi, H. Ohtsu, H. Suzuki, H. Shirai, G. D. Frank and S. Eguchi

417–428

Published on the Internet 13 March 2007, doi:10.1042/CS20060342

PAPERS

Aging is associated with an increased susceptibility to ischaemic necrosis due to microvascular perfusion failure but not a reduction in ischaemic tolerance

Y. Harder, M. Amon, M. Georgi, C. Scheuer, R. Schramm, M. Rücker, B. Pittet, D. Erni and M. D. Menger

429–440

Published as Immediate Publication 6 December 2006, doi:10.1042/CS20060187

Human arterial responses to isometric exercise: the role of the muscle metaboreflex

T. S. Davies, M. P. Frenneaux, R. I. Campbell and M. J. White

441–447

Published as Immediate Publication 6 December 2006, doi:10.1042/CS20060276

C-reactive protein modulates vagal heart rate control in patients with coronary artery disease

R. P. Nolan, G. J. Reid, P. H. Seidelin and H. K. Lau

449–456

Published as Immediate Publication 30 November 2006, doi:10.1042/CS20060132

Graded occlusion of perfused rat muscle vasculature decreases insulin action

G. C. Vollus, E. A. Bradley, M. K. Roberts, J. M. B. Newman, S. M. Richards, S. Rattigan, E. J. Barrett and M. G. Clark

457–466

Published as Immediate Publication 6 December 2006, doi:10.1042/CS20060311
