PAPERS

Increased plasma urotensin-II levels are associated with diabetic retinopathy and carotid atherosclerosis in Type 2 diabetes

T. Suguro, T. Watanabe, S. Kodate, G. Xu, T. Hirano, M. Adachi and A. Miyazaki

327–334

Published as Immediate Publication 14 March 2008, doi: 10.1042/CS20080014

Haem oxygenase-I gene transfer protects retinal ganglion cells from ischaemia/reperfusion injury

P.-H. Peng, M.-L. Ko, C.-F. Chen and S.-H. Juan

335–342

Published as Immediate Publication 14 March 2008, doi: 10.1042/CS20070384

Significant immunomodulatory effects of *Pseudomonas aeruginosa* quorum-sensing signal molecules: possible link in human sepsis

P. Boontham, A. Robins, P. Chandran, D. Pritchard, M. Cámara, P. Williams, S. Chuthapisith, A. McKechnie,

B. J. Rowlands and O. Eremin

343–351

Published as Immediate Publication 25 March 2008, doi: 10.1042/CS20080018
