REVIEW

 α_1 -Antitrypsin deficiency, chronic obstructive pulmonary disease and the serpinopathies

U. I. Ekeowa, B. Gooptu, D. Belorgey, P. Hägglöf, S. Karlsson-Li, E. Miranda, J. Pérez, I. MacLeod, H. Kroger,
S. J. Marciniak, D. C. Crowther and D. A. Lomas

837–850

Published on the Internet 14 May 2009, doi:10.1042/CS20080484

PAPERS

QT interval prolongation and decreased heart rate variability in cirrhotic patients: relevance of hepatic venous pressure gradient and serum calcium

S. Genovesi, D. M. Prata Pizzala, M. Pozzi, L. Ratti, M. Milanese, F. Pieruzzi, A. Vincenti, A. Stella, G. Mancia
and M. Stramba-Badiale

851–859

Published as Immediate Publication 10 December 2008, doi:10.1042/CS20080325

Effects of HCV co-infection on apoptosis of CD4⁺ T-cells in HIV-positive patients

C. Körner, B. Krämer, D. Schulte, M. Coenen, S. Mauss, G. Fätkenheuer, J. Oldenburg, J. Nattermann,
J. K. Rockstroh and U. Spengler

861–870

Published as Immediate Publication 7 January 2009, doi:10.1042/CS20080532

CORRESPONDENCE

Role of vitamin D in up-regulating VEGF and reducing the risk of pre-eclampsia

W. B. Grant

871

Published as Immediate Publication 10 December 2008, doi:10.1042/CS20080562

CORRECTION

Failure to up-regulate VEGF_{165b} in maternal plasma is a first trimester predictive marker for pre-eclampsia

V. L. Bills, J. Varet, A. Millar, S. J. Harper, P. W. Soothill and D. O. Bates
