## REVIEW

### **Signalling pathways in prostate carcinogenesis: potentials for molecular-targeted therapy**

A. K. Ramsay and H. Y. Leung

209–228

*Published on the Internet 14 August 2009, doi:10.1042/CS20080391*

## PAPERS

### **Comparison of the retinal microvasculature in European and African-Caribbean people with diabetes**

S. Mahal, W. D. Strain, M. E. Martinez-Perez, S. A. McG. Thom, N. Chaturvedi and A. D. Hughes

229–236

*Published as Immediate Publication 27 January 2009, doi:10.1042/CS20080538*

### **Titin isoform expression in aortic stenosis**

L. Williams, N. Howell, D. Pagano, P. Andreka, M. Vertesaljai, T. Pecor, M. Frenneaux and H. Granzier

237–242

*Published as Immediate Publication 20 January 2009, doi:10.1042/CS20080248*

### **Eicosapentaenoic acid stimulates AMP-activated protein kinase and increases visfatin secretion in cultured murine adipocytes**

S. Lorente-Cebrián, M. Bustos, A. Marti, J. A. Martinez and M. J. Moreno-Aliaga

243–249

*Published as Immediate Publication 18 March 2009, doi:10.1042/CS20090020*
