

# CLINICAL SCIENCE

Vol. 38, No. 3

March 1970

## CONTENTS

- The influence of pregnancy and lactation on the morphology and the absorptive capacity of the rat small intestine  
I. L. CRAFT 287-295
- Divalent ion excretion in chronic kidney disease: relation to degree of renal insufficiency  
M. M. POPOVTZER, L. I. SCHAINUCK, S. G. MASSRY and C. R. KLEEMAN 297-307
- Studies on the identity of a vascular permeability factor of renal origin  
M. F. CUTHBERT and W. S. PEART 309-325
- The treatment of salicylate poisoning using mannitol and forced alkaline diuresis  
K. PROWSE, M. PAIN, A. D. MARSTON and G. CUMMING 327-337
- Serum alkaline phosphatase after fat ingestion: an immunological study  
M. KLEEREKOPER, M. HORNE, C. J. CORNISH and S. POSEN 339-345
- Vasodilator properties of ethacrynic acid in the perfused dog kidney  
R. G. DLUHY, G. L. WOLF and D. P. LAULER 347-357
- Intrarenal pressure and exaggerated natriuresis in essential hypertension  
J. LOWENSTEIN, E. R. BERANBAUM, H. CHASIS and D. S. BALDWIN 359-374
- Micropuncture studies of chloride and bicarbonate absorption in the proximal renal tubule of the rat in respiratory acidosis and chloride depletion  
Y. WARREN, R. G. LUKE, M. KASHGARIAN and H. LEVITIN 375-383
- Effects of chloride restriction and depletion on acid-base balance and chloride conservation in the rat  
R. G. LUKE, Y. WARREN, M. KASHGARIAN and H. LEVITIN 385-396
- MEDICAL RESEARCH SOCIETY (Meeting held on 23 January 1970)
- Communications 15P-20P
- Demonstrations 20P-21P
