

CLINICAL SCIENCE

Vol. 39, No. 4

October 1970

CONTENTS

- Demography of serum immunoglobulins: differences in IgG and IgM levels in two normal Mexican adult populations
D. ALARCÓN-SEGOVIA and EUGENIA FISHBEIN 467-473
- The interrelationship between ECF volume and ECF anion composition in the regulation of sodium excretion
J. J. COHEN, J. A. CHAZAN and S. GARELLA 475-487
- The relationship of dietary potassium intake to the aldosterone stimulating properties of ACTH
G. H. WILLIAMS, R. G. DLUHY and R. H. UNDERWOOD 489-496
- Dynamic lung compliance and the effect of oxygen breathing in patients with chronic bronchitis
T. W. ASTIN 497-503
- Evaluation of theoretical renal phosphorus threshold as an index of renal phosphorus handling
T. C. B. STAMP and T. E. STACEY 505-516
- The effect of vasopressin on the reabsorption of sodium, potassium and urea by the renal tubules in man
M. A. BARRACLOUGH and N. F. JONES 517-527
- Estimates of arterial PCO_2 and their effect on the calculated values of cardiac output and dead space on exercise
S. GODFREY and C. T. M. DAVIES 529-537
