CONTENTS

VOL. 44, No. 1

Synthesis of human parathyroid hormone by cultured cells: evidence for release of prohormone by some adenomata. T. J. MARTIN, P. B. GREENBERG and V. MICHELANGELI

Studies on the nature and excretion of biliary copper in man. J. L. GOLLAN and D. J. DELLER

The effects of intravenous infusion of graded doses of prostaglandins F₂₅ and E₂ on lung resistance in patients undergoing termination of pregnancy. A. P. SMITH

Lack of histological evidence of vitamin D abnormality in the bones of anephric patients. PH. J. BORDIER, S. TUN CHOT, J. B. EASTWOOD, A. FOURSNIER and H. E. de WARDENER

Determination of plasma renin activity by radioimmunoassay of angiotensin I. S. FUKUCHI, T. TAKEUCHI and T. TORIKAI

The use of human skeletal muscle in vitro for biochemical and pharmacological studies of glucose uptake. K. N. FRAYN, P. I. ADNITT and P. TURNER

Changes in fat and carbohydrate metabolism caused by moderate exercise in patients with acromegaly. R. H. JOHNSON and M. J. RENNIE

The inhibition of urokinase by alpha₂-macroglobulin. D. OGSTON, B. BENNETT, ROBYN J. HERBERT and A. S. DOUGLAS

SHORT COMMUNICATIONS

Plasma zinc in pre- and post-menopausal women: its relationship to oestrogen therapy. J. M. AITKEN, R. LINDSAY and D. MCKAY HART

A direct enzymic assay for 7α-hydroxy bile acids and their conjugates. G. A. D. HASLEWOOD, G. M. MURPHY and JUDITH M. RICHARDSON

VOL. 44, No. 2

Lysine infusion in cystinuria: theoretical renal thresholds for lysine. FRANCES T. LESTER and D. C. CUSWORTH

Cardio-pulmonary responses and gas exchange during exercise in adults with homozygous sickle-cell disease (sickle-cell anaemia). G. J. MILLER, G. R. SERJEANT, S. SIVAPRAGASAM and M. C. PETCH

Changes in glomerular filtration rate during long-term treatment with propranolol in patients with arterial hypertension. H. IBSEN and P. SEDERBERG-OLSEN

xix

The effects of 30% oxygen on the respiratory response to treadmill exercise in chronic respiratory failure. A. J. King, N. J. Cooke, A. G. Leitch and D. C. Flenley

The development of a radioimmunoassay for the measurement of urinary Tamm–Horsfall glycoprotein in the presence of sodium dodecyl sulphate. Anne M. S. Grant and A. Neuberger

Short Communication
The point of onset of 'airway closure' measured with argon and nitrogen: a comparison of results obtained by two methods. M. J. B. Farebrother, R. Paredes Martinez, R. Soejima and G. J. R. McHardy

Medical Research Society (Annual General Meeting on 8 December 1972)
Symposium: Pituitary–Hypothalamic Control 1P
Communications 3P

Vol. 44, No. 3 March 1973

Neurogenic participation in essential and renovascular hypertension assessed by acute ganglionic blockade: correlation with haemodynamic indices and intravascular volume. R. C. Tarazi and Harriet P. Dustan 197

Sympathetic responsiveness to head-up tilt in essential hypertension. M. D. Esler and P. J. Nestel 213

The identification of the enzymes that catalyse the oxidation of glyoxylate to oxalate in the 100 000 g supernatant fraction of human hyperoxaluric and control liver and heart tissue. Dorothy A. Gibbs and R. W. E. Watts 227

Renin, noradrenaline and adrenaline responses to stimulated altitude. T. A. Kottchen, R. P. Hogan, A. E. Boyd, T.-K. Li, Helen C. Sing and J. W. Mason 243

Factors influencing the urinary excretion of free catecholamines in man. Mary M. Townshend and A. J. Smith 253

The effect of cold on blood flow in the hand of patients with Raynaud's phenomenon. J. A. Downey and D. B. Frewin 279

Short Communications
