CONTENTS

VOL. 50, No. 1  
JANUARY 1976

The fate of circulating lactate dehydrogenase-5 in the rabbit. A. R. QURESHI and J. H. WILKINSON 1–14
Effect of liver failure on the cerebral circulatory and metabolic responses to hypoxia in the goat.  
N. N. STANLEY and N. S. CHERNIACK 15–23
Effect of liver failure on the ventilatory response to hypoxia in man and the goat. N. N. STANLEY,  
S. G. KELSEN and N. S. CHERNIACK 25–35
The pattern of venous drainage of surgically created side-to-side arteriovenous fistulae in the human  
forearm. J. P. JAMISON and W. F. M. WALLACE 37–41
Measurement by venous occlusion plethysmography of blood flow through surgically created  
arteriovenous fistulae in the human forearm. W. F. M. WALLACE and J. P. JAMISON 43–49
The role of the colon in urea metabolism in man. J. A. GIBSON, N. J. PARK, G. E. SLADEN and A. M.  
DAWSON 51–59
A comparison of the clearance of urographic contrast medium (sodium diatrizoate) by peritoneal  
and haemodialysis. P. ACKRILL, C. S. MCINTOSH, C. NIMMON, L. R. I. BAKER and W. R.  
CATTIE 69–74

SHORT COMMUNICATIONS

Acid hydrolase activities and lysosomal integrity in liver biopsies from patients with iron overload.  
T. J. PETERS and CAROL A. SEYMOUR 75–78
Absence of an acute effect of calcium or parathyroid hormone administration on plasma renin  
Ventilatory response to carbon dioxide in tetanus. O. O. ELEGBELEYE and D. FEMI-PARSEE 83–86
Effects of halothane on pulmonary inactivation of noradrenaline and prostaglandin E₂ in anaes-  
thesitized dogs. Y. S. BAKHLE and A. J. BLOCK 87–90

VOL. 50, No. 2  
FEBRUARY 1976

Multiple changes in distal stop-flow electrolyte patterns and reduction of acid excretion induced in  
rabbits by angiotensin. J. K. HEALY and A. J. ELLIOTT 91–102
Plasma renin activity as a function of age in two new strains of spontaneously hypertensive and  
normotensive rats. MADELEINE VINCENT, JEANNE DUPONT and J. SASSARD 103–107
Estimation of the resting reflex hypoxic drive to respiration in patients with diffuse pulmonary  
infiltration. R. A. STOCKLEY and K. D. LEE 109–114
The functional response of the dog ileum to one hour’s ischaemia. J. W. L. ROBINSON, H. MENGE,  
F. V. SEPÚLVEDA, F. COBO and V. MIRKOVITCH 115–122
Morphology and function of the dog ileum after mechanical occlusion. V. MIRKOVITCH, F. COBO,  
J. W. L. ROBINSON, H. MENGE and SZ. GOMBA 123–130
Measurement of an index of muscle capillary permeability and its correlation with serum insulin  
values in maturity-onset diabetic subjects. C. LOWY, R. N. ARNOT and T. RUSSELL FRASER 131–138
Evidence for both luminal and systemic factors in the control of rat intestinal epithelial replacement  
R. M. CLARKE 139–144

MEDICAL RESEARCH SOCIETY (Annual General Meeting on 12 December 1975)

Symposium: Gut Hormones  
Communications  
1p  
1p–33p  
xxii
The effect of chelating agents on cellular iron metabolism. G. P. White, R. Bailey-Wood and A. Jacobs 145-152

Glucose tolerance and insulin release in malnourished rats. C. Weinkove, E. A. Weinkove and B. L. Pimstone 153-163

The acute effects of respiratory and metabolic acidosis on renal function in the dog. M. O. Farber, J. J. Szwed, A. R. Dowell and R. A. Strawbridge 165-169

Cell size and glucose oxidation rate in adipose tissue from non-diabetic and diabetic obese human subjects. L. C. Harrison and A. P. King-Roach 171-175

The haemodynamic effects of metabolic acidosis in the rat. J. Yudkin, R. D. Cohen and Barbara Slack 177-184

The effect of acidosis on lactate removal by the perfused rat kidney. J. Yudkin and R. D. Cohen 185-194

Assessment of responsiveness to carbon dioxide in patients with chronic airways obstruction by rate of isometric inspiratory pressure development. A. W. Matthews and J. B. L. Howell 199-205

Effect of nutritional status on rat adipose tissue, muscle and post-heparin plasma clearing factor lipase activities: their relationship to triglyceride fatty acid uptake by fat-cells and to plasma insulin concentrations. A. Cryer, Susan E. Riley, E. R. Williams and D. S. Robinson 213-221

The relation between the excretion of sodium and water and the perfusion pressure in the isolated, blood-perfused, rabbit kidney, with special reference to changes occurring in clip-hypertension. J. M. A. Thompson and C. J. Dickinson 223-236

Short Communication

Vol. 50, No. 4

Post-heparin plasma lipoprotein lipase and hepatic lipase in normal subjects and in patients with hypertriglyceridaemia: correlations to sex, age and various parameters of triglyceride metabolism. J. K. Huttunen, C. Enhholm, M. Keikki and E. A. Niskiä 249-260

The clinical measurement of skeletal blood flow. R. Wootton, J. Reeve and N. Veall 261-268

Suppression of the renin–aldosterone system in mild essential hypertension. A. M. Khokhar, J. D. H. Slater, T. P. Jowett and N. N. Payne 269-276

Polyuria associated with an antibody to vasopressin. G. W. Bisset, Angela Black, P. J. Hilton, N. F. Jones and Margaret Montgomery 277-283

The intracellular pH of human leucocytes in response to acid–base changes in vitro. G. E. Levin, P. Collinson and D. N. Baron 293-299

Contents

The distribution of [14C]cholesterol in muscle and skin of Rhesus monkeys after intravenous injection. C. D. MOUTAFIS and N. B. MYANT 307-310

SHORT COMMUNICATIONS

Changes in the carotid body and the ventilatory response to hypoxia in chronically hypoxic rats. GWENDA R. BARER, C. W. EDWARDS and ANGELA I. JOLLY 311-313

Lipoprotein lipase and hormone-sensitive lipase activities in human subcutaneous lipomas: comparison with normal subcutaneous adipose tissue. Y. GIUDICELLI, R. PECQUERY, B. AGLI, C. JAMIN and J. QUEVAUVILLIERS 315-318

CORRESPONDENCE SECTION

Regression lines and correlations. J. P. NICHOLSON, CAROL M. TAYLOR and M. L. LEVIN 319-320

VOL. 50, No. 5  MAY 1976

The spectrophotometric determination of human serum carboxypolypeptidase with angiotensin converting enzyme-like activity. J. J. SUMMARY 321-327

Rat hepatic sodium plus potassium ion-dependent adenosine triphosphatase after treatment with digoxin and thyroxine. R. LINDSAY and J. L. W. PARKER 329-332

Analytical subcellular fractionation studies on rat liver and on isolated jejunal enterocytes with special reference to the separation of lysosomes, peroxisomes and mitochondria. T. J. PETERS and H. SHIO 355-366

The ventilatory response in severe metabolic acidosis. M. FULOP 367-373

The relation between functioning parietal cell and gastrin cell masses in two groups of duodenal ulcer patients. D. J. BYRNES, SHIU KUM LAM and W. SIRCUS 375-383

Disappearance of 125I-labelled and unlabelled insulins from blood in normal and injured rats. K. N. FRAYN 385-392

Turnover of plasma glucose and free fatty acids in patients on the first day after myocardial infarction. I. A. NIMMO, R. H. SMITH, M. A. DOLDER and M. F. OLIVER 401-407

Biochemical and morphological studies on human jejunal mucosa maintained in culture. C. L'HIRONDEL, W. F. DOE and T. J. PETERS 425-429

SHORT COMMUNICATION

Vol. 50, No. 6

The relation between potassium in body fluids and total body potassium in healthy and diabetic subjects. K. Boddy, R. Hume, C. White, A. Pack, P. C. King, E. Weyers, T. Rowan and E. Mills

The effect of insulin on adenosine 3':5'-monophosphate and guanosine 3':5'-monophosphate concentrations in human plasma. K. Siddle, C. J. Davies, K. J. Shetty and R. S. Elkeles

Effect of inhibition of gluconeogenesis on ammonia production in the perfused rat kidney. B. D. Ross

Absorption of galactose by the rat small intestine in vivo: proximal–distal kinetic gradients and a new method to express absorption per enterocyte. R. M. Batt and T. J. Peters

Effects of prednisolone on the small intestinal mucosa of the rat. R. M. Batt and T. J. Peters

Studies of amino acid and protein metabolism in normal man with L-[U-14C]tyrosine. W. P. T. James, P. J. Garlick, P. M. Sender and J. C. Waterlow

Haemodynamic studies in dogs with chronic bile-duct ligation. S. M. Shasha, O. S. Better, C. Chaimovitz, J. Domian and Y. Kishon

Release of colony-stimulating activity from the isolated perfused rat liver. A. Howell, W. G. E. Cooksley and C. J. Danpure

The effect of active immunization against aldosterone on the colonic potential response and sodium excretion in rabbits. R. J. Lennane, J. Stockigt and W. S. Peart

SHORT COMMUNICATION

Plasma growth hormone concentrations in Huntington’s chorea. O. T. Phillipson and E. D. Bird
