CONTENTS

Vol. 52, No. 1 January 1977

Guidance for Authors i-xi

Editorial Review: Hypercalciuria. B. E. C. NORDIN 1-8

The origin and fate of salivary urea and ammonia in man. J. KOPSTEIN and O. M. WRONG 9-17

Oestrogen-associated disease of the renal microcirculation. K. JONES, P. F. NAISH and G. M. ABER (Correction, page 636) 33-42

Evidence for renal control of urinary excretion of bile acids and bile acid sulphates in the cholestatic syndrome. J. A. SUMMERFIELD, JULIA CULLEN, S. BARNES and BARBARA H. BILLING 51-65

Acid–base and respiratory changes after prolonged exposure to 1% carbon dioxide. B. J. W. PINGREE 67-74

Molecular exclusion electrophoresis of human serum lipoproteins: patterns in control and ischaemic heart-disease populations. J. GREEN and S. CARNEY 75-82

Biosynthesis of folate polyglutamate in the rat with different tracers. B. REED, D. G. WEIR and J. M. SCOTT 83-86

Binding of transferrin and uptake of iron by rat erythroid cells in vitro. N. J. VERHOEF and P. J. NOORDLOOS 87-96

The analysis of decay curves. H. H. LAFFERTY, A. E. B. GIDDINGS and D. MANGNALL 97-101

SHORT COMMUNICATIONS

Release by vasopressin of E-type prostaglandins from the rat kidney. C. BELL and M. K. MYA 103-106

Vol. 52, No. 2 February 1977

Lack of dependence of urine $P_{CO_2}$ upon reduction of glomerular filtration rate in alkalotic dogs. B. J. STINEBAUGH, T. H. HOSTETTER, R. A. PERAINO, F. X. SCHLOEDER and W. N. SUKI 119-123

Effects of metabolic alkalosis, metabolic acidosis and uraemia on whole-body intracellular pH in man. A. TIZIANELLO, G. DE FERRARI, G. GURRERI and N. ACQUARONE 125-135

Effect of pentobarbitone sodium on serum creatine kinase of normal and dystrophic hamsters. J. S. NEERUNJUN and V. DUBOWITZ 137-142

Inhibition of frusemide-induced natriuresis by indomethacin in patients with the nephrotic syndrome. R. G. W. L. TIGGELER, R. A. P. KOENE and P. G. A. B. WIJDEVELD 149-151

xxv
Contents

Resolution of hypoxic changes in the heart and pulmonary arterioles of rats during intermittent correction of hypoxia. Enid Leach, P. Howard and Gwenda R. Barer 153–162

The course of arterial pressure and the effect of Sar¹-Thr⁸-angiotensin II in a new model of two-kidney hypertension in conscious dogs. Z. Masaki, C. M. Ferrario, F. M. Bumpus, E. L. Bravo and M. C. Khosla 163–170

Comparison of the effect of two groups of diuretics on renin secretion in the anaesthetized dog. J. L. Imbs, M. Schmidt, J. Velly and J. Schwartz 171–182

Metabolism of intravenously administered dipeptides in rats: effects on amino acid pools, glucose concentration and insulin and glucagon secretion. S. A. Adibi, B. A. Krzysik and A. L. Drash 193–204

Short Communications

Accentuation of ethanol-induced fatty liver by phenobarbitone. A. R. Marsh, H. S. Fraser, A. Breckenridge, B. Lewis and G. R. Thompson 219–222

Medical Research Society (Annual General Meeting on 10 and 11 December 1976) Symposium: Control of Circulation to the Tissues 1p

Communications

Vol. 52, No. 3 March 1977

Enzyme activities in human liver biopsies: assay methods and activities of some lysosomal and membrane-bound enzymes in control tissue and serum. Carol A. Seymour and T. J. Peters 229–239

Lysosomal changes in liver tissue from patients with the Dubin–Johnson–Sprinz syndrome. Carol A. Seymour, G. Neale and T. J. Peters 241–248

Amino acid concentrations in portal venous plasma during absorption from the small intestine of the guinea pig of an amino acid mixture simulating casein and a partial enzymic hydrolysate of casein. M. H. Sleisenger, D. Pelling, D. Burston and D. M. Matthews 259–267

Oxygen affinity in vivo and in vitro in chronic ventilatory failure. P. M. Tweeddale, R. J. E. Leggett and D. C. Flenley 277–281

Human skeletal muscle function: description of tests and normal values. R. H. T. Edwards, A. Young, G. P. Hosking and D. A. Jones 283–290

Blood pressure response of nephrectomized hypertensive rats to converting enzyme inhibition: evidence for persistent vascular renin activity. H. Thurston and J. D. Swales 299–304
The role of the false neurotransmitter octopamine in the hypotension of fulminant hepatic failure. P. N. Trewby, R. A. Chase, M. Davis and R. Williams 305–310

Plasma glucose, non-esterified fatty acids and amino acids in Huntington’s chorea. O. T. Phillipson and E. D. Bird 311–318

Short Communications

Leucocyte intracellular pH in patients with the metabolic acidosis of renal failure. G. E. Levin and D. N. Baron 325–328

Vol. 52, No. 4 April 1977

Comparison of the effects of water immersion and saline infusion on central haemodynamics in man. R. Levinson, M. Epstein, M. A. Sackner and R. Begin 343–350

Failure of selected endocrine organ ablation to modify the natriuresis of blood volume expansion in the dog. G. J. Kaloyanides, Loren Cohen and G. F. DiBona 351–356

Suppression of plasma renin activity by intravenous infusion of antidiuretic hormone in man. B. Hesse and I. Nielson 357–360

Sodium restriction and inhibition of the renin–angiotensin system in renovascular hypertension in the rat. J. D. Swales and H. Thurston 371–375

A new open-circuit method for estimating carbon dioxide tension in mixed venous blood. Reija Al-Dulymi and R. Hainsworth 377–382

The binding of plasma proteins to human placental cell membranes. A. H. Balfour and E. A. Jones 383–394

Muscle metabolism in patients with chronic obstructive lung disease and acute respiratory failure. Ingrid Gertz, Göran Hedenstierna, Göran Hellers and J. Wahren 395–403

Erythrocyte adenosine triphosphate and 2,3-diphosphoglycerate after human renal transplantation: dissociation from hypophosphataemia. C. G. Barcenas, P. Paez, K. Uveda, P. C. Peters and A. R. Hull 413–422

Bronchial provocation in the study of sensations associated with disordered breathing. A. R. Rubinfeld and M. C. F. Pain 423–428

Analytical subcellular fractionation of human granulocytes with special reference to the localization of enzymes involved in microbicidal mechanisms. A. W. Segal and T. J. Peters 429–442

Vol. 52, No. 5 May 1977

Porphyins in erythrocytes and blood plasma: preliminary studies with qualitative thin-layer chromatography. T. K. With 463–467

Plasma noradrenaline concentrations in experimental renovascular hypertension in the rat. H. J. DARGIE, S. S. FRANKLIN and J. L. REID

Human hepatic δ-aminolaevulinate synthase: requirement of an exogenous system for succinyl-coenzyme A generation to demonstrate increased activity in cirrhotic and anticonvulsant-treated subjects. H. L. BONKOWSKY and JOANNE S. POMEROY

Bone necrosis and urinary hydroxyproline excretion in rabbits. C. R. WEATHERLEY, G. DALE, J. MCGURK and D. N. WALDER

Muscle-protein catabolism after injury in man, as measured by urinary excretion of 3-methylhistidine. D. H. WILLIAMSON, ROSE FARRELL, ALISON KERR and R. SMITH

Proline and hydroxyproline excretion and vitamin C status in elderly human subjects. C. J. BATES

SHORT COMMUNICATION

Intrarenal role of angiotensin II in controlling sodium excretion during dehydration in dogs. N. C. TRIPPODO, J. E. HALL, T. E. LOHMEIER and A. C. GUYTON

Vol. 52, No. 6 June 1977

Editorial Review: The chemical control of the cerebral circulation. I. R. CAMERON

The effect of dietary sodium intake on the blood pressure and cardiac output responses to angiotensin II in unanaesthetized rats. BARBARA L. SLACK and J. M. LEDINGHAM

Plasma calcitonin in chronic renal failure: relation to other factors of importance in bivalent ion metabolism. R. SHAINKIN-KESTENBAUM, R. LERMAN, A. REUBEN and G. M. BERLYNE

Enzyme activities of cells of different types isolated from livers of normal and cholestatic rats. A. M. WOOTTON, G. NEALE and D. W. MOSS

Plasma renin levels and systemic haemodynamics in essential hypertension. R. FAGARD, A. AMERY, T. REYBROUCK, P. LUNET, L. BILLIET and J. V. JOOSSENS

Mitochondrial functions and content of microsomal and mitochondrial cytochromes in human cirrhosis. J. DIAZ GIL, I. ROSSI, P. ESCARTIN, J. M. SEGOVIA and M. GOSALVEZ

Intestinal absorption of glycine and glycy1-L-proline in the rat. R. C. HEADING, H. P. SCHEDL, L. D. STEGINK and D. L. MILLER

Prostaglandin activity in sustained inflammation of human skin before and after aspirin. N. A. PLUMMER, C. N. HENSBY, A. KOBZA BLACK and M. W. GREAVES

SHORT COMMUNICATION

The effect of chronic furosemide administration on intracellular potassium, sodium and pH of cardiac and skeletal muscle. R. J. C. HALL and I. R. CAMERON

CORRESPONDENCE SECTION
