Editorial Review: Thyroid-stimulating hormone: Neuroregulation and clinical applications. M. F. Scanlon, B. Rees Smith and R. Hall

Renin release from renin granules in the dog. S. Funakawa, T. Higashio and K. Yamamoto

Lack of effect of blood-volume expansion on short-circuit current across an isolated toad skin incorporated in the circulation of the rat. D. Querido and L. C. Isaacson

The nature of inactive renin in human plasma and amniotic fluid. A. A. Shulkes, R. R. Gibson and S. L. Skinner

Blood alcohol and impairment of judgment. J. E. F. Pohl

Determinants of high blood pressure in salt-deprived renal hypertensive rats: role of changes in plasma volume, extracellular fluid volume and plasma angiotensin II. A. J. Mourant

Catecholamines in peripheral venous plasma in patients on chronic haemodialysis. B. P. McGrath, J. G. G. Ledingham and C. R. Benedict

Gastric ulcers with and without associated duodenal ulcer have different pathophysiology. S. K. Lam and C. L. Lai

Impaired skeletal muscle vasomotor response to infused noradrenaline in baboons with obstructive jaundice. L. Bomzon, P. B. Wilton and T. A. McCalden

Effects of concentration-polarization on the filtration of proteins through filters constructed from isolated renal basement membrane. T. G. Cotter and G. B. Robinson

Short Communications

Parallel changes between lipoprotein lipase activating capacity and lipid concentrations in the serum of rats and ferrets during development and dietary manipulation. A. Cryer and H. J. Jones

Contents

VOL. 55, No. 2 August 1978

Metabolism of intact and desialylated α1-antitrypsin. E. A. JONES, J. VERGALLA, C. J. STEER, P. R. BRADLEY-MOORE and J. M. VIERLING 139–148

Biphasic changes in thymus structure during evolving renal hypertension. R. E. CHATELAIN and C. M. FERRARIO 149–156

Analytical subcellular fractionation and studies on enterocytes from the jejunum and ileum of the rat and some properties of brush-border alkaline phosphatase. R. M. BATT and T. J. PETERS 157–165

Effect of varying PCO₂ on intracellular pH and lactate consumption in the isolated perfused rat liver. P. G. BARON, R. A. ILES and R. D. COHEN 175–181

Mechanism of the effect of varying PCO₂ on gluconeogenesis from lactate in the perfused rat liver. R. A. ILES, P. G. BARON and R. D. COHEN 183–188

Intestinal absorption and tissue retention of cadmium and calcium in normal adult rats and rats given an active metabolite of vitamin D (1,25-dihydroxycholecalciferol). R. LORENTZON and S.-E. LARSSON 195–198

Galactose and hepatic metabolism in malnutrition and sepsis in man. G. ROYLE, M. G. W. KETTLEWELL, V. ILIC and D. H. WILLIAMSON 199–204

SHORT COMMUNICATION

Post-mortem migration of bone-seeking radionuclides in the rat and rabbit and its effect on estimates of bone uptake. P. TOTHILL and J. N. MACPHERSON 211–223

VOL. 55, No. 3 September 1978

A comparison of methods for measurement of rectal potential difference in man: effects of rectal infusion of amiloride. F. MOHAMED, P. MCSORLEY and D. J. WARREN 231–234

Contents

Partial characterization of aortic renin in the spontaneously hypertensive rat and its interrelationship with plasma renin, blood pressure and sodium balance. J. D. Barrett, P. Eggena and M. P. Sambhi 261–270

Effect of unconjugated and conjugated phenol and uraemia on the synthesis of adenosine 3'5'-cyclic monophosphate in rat brain homogenates. G. A. Turner and E. N. Wardle 271–275

Analytical subcellular fractionation of jejunal biopsy specimens: enzyme activities, organelle pathology and response to corticosteroids in patients with non-responsive coeliac disease. T. J. Peters, P. E. Jones, W. J. Jenkins and G. Wells 293–300

Vasopressin effects on plasma renin activity in male and female rats. I. W. Henderson, R. J. Balment and J. A. Oliver 301–307

The respiratory response to inhaled carbon dioxide in man after 3 hours exposure to 3% carbon dioxide. K. Prowse, C. Du Vivier, R. Peslin and P. Sadoul 309–316

Short Communication

The distribution of cardiac output in the anaesthetized spontaneously hypertensive rat. C. R. Hiley and M. S. Yates 317–320

Medical Research Society (Meeting on 7 and 8 July 1978)
Communications 1p–31p

Vol. 55, No. 4 October 1978

Excretion of urea by the foetal guinea pig. J. Horn 329–333
Effect of prolactin on glomerular filtration rate. A. L. Riley, T. C. Hagen and J. E. Stefanaik 335–339
Effect of acute ethanol administration on liver oxidative capacity in rats. L. A. Videla 341–347
Age-dependent difference of kidney response to temporary ischaemia in the rat. J. Kuneš, K. Čapek, J. Stejskal and J. Jelinek 365–368
Identification of a delivery-related influence on proximal tubular reabsorption during expansion with hyperoncotic albumin in the rat. J. F. Donohoe, G. S. Lefavour, S. Cortell and F. J. Gennari 369–376
Hepatic elimination of renin in man. B. Hesse, E. Damgaard Andersen and H. Ringlarsen 377–382
Changes in hepatic enzymes and organelles in alcoholic liver disease. C. A. Seymour and T. J. Peters 383–389
Effects of chronic renal insufficiency and metabolic acidosis on glutamine metabolism in man. A. Tizianello, G. De Ferrari, G. Garibotto and G. Gurrerì 391–397

SHORT COMMUNICATION

Tracing the fate of oxygen consumed during phagocytosis by human neutrophils with $^{15}$O$_2$. A. W. Segal, J. Clark and A. C. Allison 413–415

Vol. 55, No. 5 November 1978

Analytical subcellular fractionation studies on different cell types isolated from normal rat liver. C. Selden, A. M. Wooton, D. W. Moss and T. J. Peters 423–427

The effects of prednisolone on the rat enterocyte at a subcellular level. R. M. Batt, G. Wells and T. J. Peters 435–443

Comparison of cardiac output determined by a carbon dioxide-rebreathing and direct Fick method at rest and during exercise. T. Reybrouck, A. Amery, L. Billiet, R. FAGARD and H. STIJNS 445–452

The nature of hepatic cytochrome P-450 induced in hexachlorobenzene-fed rats. G. H. BLEKKENHORST, L. EALES and N. R. PIMSTONE 461–469

The effect of vibration on blood flow in skeletal muscle in the rabbit. O. Hudlická and A. Wright 471–476

Haemodynamic variables during repeated exercise in chronic lung disease. F. Schrijen and V. Ježek 485–490

SHORT COMMUNICATIONS

Small-intestinal changes induced by an elemental diet (Vivonex) in normal rats. L. M. Elson, H. A. Carmichael, R. I. Russe and F. D. Lee 509–511

Vol. 55, No. 6 December 1978

Editorial Review: The isolated perfused rat kidney. B. D. Ross 513–521

The retention of lung secretions during the night in normal subjects. J. R. M. Bateman, D. Pavia and S. W. Clarke 523–527

Assessment of early and delayed responses in vitamin B_{12} absorption during antibiotic therapy in tropical malabsorption. A. M. TOMKINS, T. SMITH and S. G. WRIGHT 533–539

Acute effects of diuretics on potassium exchange, mechanical function and the action potential in rabbit myocardium. P. A. POOLE-WILSON, S. M. COBBE and C. H. FRY 555–559

The formation of tri-iodothyronine and reverse tri-iodothyronine from thyroxine in isolated rat renal tubules. P. HEYMA, R. G. LARKINS, J. R. STOCKIGT and D. G. CAMPBELL 567–572

**SHORT COMMUNICATION**

Hypoxanthine–guanine phosphoribosyltransferase activity in blood and skeletal muscles of normal and dystrophic mice. J. S. NEERUNJUN, J. ALLSOP and V. DUBOWITZ 573–576

**CORRECTION**

Control of enzymatically inactive renin in man under various pathological conditions: implications for the interpretation of renin measurements in peripheral and renal venous plasma

By F. H. M. DERKX, G. J. WENTING, A. J. MAN IN ’T VELD, R. P. VERHOEVEN AND M. A. D. H. SCHALEKAMP

Volume 54 (1978)
