

## **Editorial Preface**

The Ninth Scientific Meeting of the International Society of Hypertension was held in Mexico City from 21st to 24th February 1982. Once again the proceedings are being published as a supplement of *Clinical Science* (Supplement 8 in the series).

The appearance of this volume within such a short time of the meeting is due to the efforts of a great number of people.

Firstly, the authors of papers who submitted manuscripts on time and promptly responded to editorial queries.

Secondly, the the efforts of Mr A. Evans and his colleagues in the editorial office of *Clinical Science*.

Thirdly, to those past and present members of the Editorial Board of *Clinical Science* who assisted in the editing and reviewing of manuscripts over a short period of time:

Dr Hans Brunner  
Dr James Conway  
Dr Robert Fraser  
Professor Charles George  
Dr Frank Goodwin  
Dr John Vann Jones  
Dr Michael Lee  
Professor Brian Morgan  
Dr Ian Robertson  
Professor Peter Sever  
Professor John Swales

Finally, I would like to thank my secretary, Miss E. J. Newell, who helped to coordinate review and editing of the Proceedings.
