

## CONTENTS

**EDITORIAL REVIEW**

- Factors contributing to bronchial hyper-responsiveness in asthma  
P. D. SNASHALL, M. K. GILLET and K. F. CHUNG 113-118

**RAPID COMMUNICATION**

- Evaluation of angiogenesis in chronic inflammation by laser-Doppler flowmetry  
C. ORLANDI, C. J. DUNN and L. G. CUTSHAW 119-121
- Protein and substrate metabolism during starvation and parenteral refeeding  
K. J. TRACEY, A. LEGASPI, J. D. ALBERT, M. JEEVANANDAM, D. E. MATTHEWS,  
M. F. BRENNAN and S. F. LOWRY 123-132
- Circulating opioid peptides during water immersion in normal man  
P. CORUZZI, C. RAVANETTI, L. MUSIARI, A. BIGGI, P. P. VESCOVI and  
A. NOVARINI 133-136
- Unaltered dopaminergic modulation of aldosterone secretion in cirrhosis  
M. BERNARDI, R. DE PALMA, F. TREVISANI, R. MALATESTA, M. BARALDINI,  
C. CURSARO and G. GASBARRINI 137-143
- Effect of changes in dietary sodium on active electrolyte transport by erythrocytes  
at different stages of human pregnancy  
E. D. M. GALLERY, J. ROWE, M. A. BROWN and M. ROSS 145-150
- Plasma [<sup>3</sup>H]noradrenaline kinetics in man: is separation of alumina extracts by high  
performance liquid chromatography necessary?  
A. J. McCANCE and J. C. FORFAR 151-154
- Influence of hyperinsulinaemia on intracellular amino acid levels and amino acid  
exchange across splanchnic and leg tissues in uraemia  
A. ALVESTRAND, R. A. DEFRONZO, D. SMITH and J. WAHREN 155-163
- Skeletal muscle glutamine production in thermally injured rats  
M. S. M. ARDAWI 165-172
- Lithium clearance measurements as an indication of cyclosporin A nephrotoxicity  
in the rat  
P. H. WHITING and J. G. SIMPSON 173-178
- The ratio between ankle and brachial systolic pressure in patients with sustained  
uncomplicated essential hypertension  
CH. J. HUGUE, M. E. SAFAR, M. CH. ALIEFIERAKIS, R. G. ASMAR and  
G. M. LONDON 179-182
- Abnormal diurnal variation in salt and water excretion in patients with obstructive  
sleep apnoea  
A. R. H. WARLEY and J. R. STRADLING 183-185
- Effect of inhaled methacholine on gas mixing efficiency  
F. LANGLEY, K. HORSFIELD, G. BURTON, W. A. SEED, S. PARKER and  
G. CUMMING 187-182
- Selective alteration of brush-border hydrolases in intestinal diseases in childhood  
A. D. PHILLIPS, M. W. SMITH and J. A. WALKER-SMITH 193-200
- Effect of changes in local skin temperature on postural vasoconstriction in man  
A. A. K. HASSAN and J. E. TOOKE 201-206
- Direct effect of  $\alpha$ -human atrial natriuretic peptide on human vasculature *in vivo* and  
*in vitro*  
A. HUGHES, S. THOM, P. GOLDBERG, G. MARTIN and P. SEVER 207-211
- Decreased density of binding sites for atrial natriuretic peptide on platelets of  
patients with severe congestive heart failure  
E. L. SCHIFFRIN 213-218
- Naloxone increases mucosal fluid secretion in the inflamed and distended feline gall  
bladder: evidence for a possible protective mechanism by endogenous opioids  
L. JIVEGARD and J. SVANVIK 219-223
