Effect of postural change and thermoregulatory stress on the capillary microcirculation of the human toe
M. D. Flynn, A. A. K. Hassan and J. E. Tooke 231–236

Ascorbic acid: a factor concentrated in human gastric juice

Effect of chronic ethanol ingestion on tissue RNA and blood flow in skeletal muscle with comparative reference to bone and tissues of the gastrointestinal tract of the rat

Effect of hypoxia and hypercapnia on atrial natriuretic factor and plasma renin activity in conscious dogs

Effect of aminophylline on plasma and urinary catecholamine levels during heavy leg exercise in healthy young men
A. Wennmalm, E. Karwatowska-Prokopczuk and M. Wennmalm 255–260

Local pathological responses to slow-release recombinant interleukin-1, interleukin-2 and γ-interferon in the mouse and their relevance to chronic inflammatory disease

Multi-organ damage resulting from experimental faecal peritonitis
D. Tighe, R. Moss, S. Boghossian, M. F. Heath, B. Chessum and E. D. Bennett 269–276

A comparison of the visual analogue scale and modified Borg scale for the measurement of dyspnoea during exercise
R. C. Wilson and P. W. Jones 277–282

Responsiveness of superficial hand veins to adrenergic stimuli in patients with cystic fibrosis

Hypertension and renal dysfunction in primary hyperparathyroidism: effect of parathyroidectomy

Absorption and metabolism of cholesterol in familial hypercholesterolaemia
H. Gylling and T. A. Miettinen 297–301

Inhibition of endogenous oxalate production: biochemical considerations of the roles of glycollate oxidase and lactate dehydrogenase

Renal kallikrein activity in rats developing spontaneous hypertension
F. Praddaude, T. Tran-Van and J.-L. Ader 311–315

Altered interactions between glycosylation and lipid synthesis after liver resection: specific effects of liver regeneration, coupled with non-specific effects of surgery
M. J. Holness, P. S. Schofield and M. C. Sugiuen 317–322

Changes in forearm blood flow at elevated ambient temperature and their role in the apparent impairment of glucose tolerance
K. N. Frayn, P. L. Whyte, H. A. Benson, D. J. Earl and H. A. Smith 323–328

Different cation transport inhibitor in malignant renal hypertension and in uraemia
G. Simon 329–333

Sodium and lithium handling in the isolated hypertensive rat kidney
J. D. Firth, A. E. G. Raine and J. G. G. Ledingham 335–341
