RAPID COMMUNICATIONS

A rapid publication facility for authors, **Rapid Communications**, is now available. A Rapid Communication should be completed work, not merely a preliminary report, and not exceed four printed pages (3000 words with appropriate deductions, at the rate of 1000 words/page, for Figures and Tables). An editorial decision will be provided rapidly, without reports. Publication will proceed after an edited typescript, but not proofs, has been seen by the authors. Rejection of a submitted Rapid Communication will not preclude its re-submission for review as a full paper. For further details see Guidance for Authors (*Clinical Science*, 76, iii).
