**CONTENTS**

**Vol. 79, No. 1**

**July 1990**

**RAPID COMMUNICATION**

Patients' perception of distress due to symptoms and effects of asthma on daily living and an investigation of possible influential factors by F. H. Quirk and P. W. Jones 17–21

Renal acidification defect induced by lithium in control and acidotic rats by M. MacLauglin and M. Mello Aires 23–27

Cutaneous vascular responses evoked in the hand by the cold pressor test and by mental arithmetic by I. Marriott, J. M. Marshall and E. J. Johns 43–50

Role of atrial natriuretic factor in changes in the responsiveness of aldosterone to angiotensin II secondary to sodium loading and depletion in man by H. Tuchelt, G. Eschenhagen, V. Bahr, G. Schwietzer, H. M. Theede and W. Oelkers 57–65

Impaired natriuretic response to atrial natriuretic peptide in the isolated kidney or rats with experimental cirrhosis by M. Z. Panos, C. Gove, J. D. Firth, A. E. G. Rainie, J. G. G. Ledingham, D. Westaby and R. Williams 67–71

Orthostatic circulatory control in the elderly evaluated by non-invasive continuous blood pressure measurement by B. P. M. Imholz, J. H. A. Dambrink, J. M. Karemaker and W. Wieling 73–79

Comparison of dye-dilution and plethysmographic blood flow measurements: an evaluation of the influence of invasive techniques on blood flow and on arterial and femoral venous substrate variables in man by L. Jorfeldt and H. Rutberg 81–87

Substrate utilization during exercise in chronic cardiac failure by M. Riley, J. S. Elborn, N. Bell, C. F. Stanford and D. P. Nicholls 89–95

**Vol. 79, No. 2**

**August 1990**

**EDITORIAL REVIEW**

Neutrophil kinetics in the lungs by W. MacNee and C. Selby 97–107

**RAPID COMMUNICATION**

Distal lithium reabsorption in the sodium-restricted rat is not dependent on the urinary sodium to lithium concentration ratio by M. Shalmi, J. S. Petersen, K. Thomsen and S. Christensen 109–112
Contents

Glycosaminoglycan content, oxalate self-exchange and protein phosphorylation in erythrocytes of patients with 'idiopathic' calcium oxalate nephrolithiasis by B. BAGGIO, G. MARZARO, G. GAMBARO, F. MARCINI, H. E. WILLIAMS and A. BORSATTI

Active and inactive urinary kallikrein in man: effects of diuresis and antidiuresis by D. G. WALLER, S. S. BHATIA, S. K. CAMPBELL, J. D. M. ALBANO and J. G. B. MILLAR

Sodium and water excretion in nephrotic patients: effects of changes in renal haemodynamics by M. ALLON, C. B. PASQUE and M. RODRIGUEZ

Haemodynamic and metabolic effects of infused adenosine in man by A. ELDUND, A. SOLLEVI and B. LINDE

Glutamine metabolism in skeletal muscle of glucocorticoid-treated rats by M. S. M.

Direct vascular effects in the rat of the vehicles used for the intravenous and oral administration of cyclosporin A by C. AMORENA, A. CASTRO, A. MOLLER and M. F. VILLAMIL

Physiological levels of plasma non-esterified fatty acids impair forearm glucose uptake in normal man by M. WALKER, G. R. FULCHER, C. CATALANO, G. PETRANYI, H. ORSKOV and K. G. M. M. ALBERTI

Simultaneous assessment of intestinal permeability and lactose tolerance with orally administered raffinose, lactose and L-arabinose by R. W. LOBLEY, P. C. BURROWS, R. WARWICK, D. J. DAWSON and R. HOLMES

Effects of lead and a low-molecular-weight endogenous plasma inhibitor on the kinetics of sodium-potassium-activated adenosine triphosphatase and potassium-activated p-nitrophenylphosphatase by E. WEILER, F. KHALIL-MANESH and H. C. GONICK

EDITORIAL REVIEW

The primary role of the kidney and salt intake in the aetiology of essential hypertension: part I by H. E. DE WARDENER

Errors inherent in the primed infusion method for the measurement of the rate of glucose appearance in man when uptake is not forced by glucose or insulin infusion by D. F. HEATH

Effect of endothelin on the function of the isolated perfused working rat heart by J. D. FIRTH, A. F. C. ROBERTS and A. E. G. Raine

Simplifying the lithium-marker technique used to assess the dietary intake of discretionary sodium in population studies by C. LECLERCQ, V. AVALLE, L. RANALDI, E. TOTTI and A. PIERRO-LUZZI

Vol. 79, No. 3 September 1990

Metabolism of 15N-labelled urea in the functioning and defunctioned human colon by B. J. Moran, and A. A. Jackson 253–258

Kinetics of influx of peptides and amino acids into hamster jejunum in vitro: physiological and theoretical implications by D. Burstón and D. M. Matthews 267–272

Effect of Nδ-monomethyl-L-arginine on endothelium-dependent relaxation of human subcutaneous resistance arteries by R. G. Woolfson and L. Poston 273–278

Effects of blood glucose concentration on thermogenesis and glucose disposal during hyperinsulinaemia by I. W. Galen and I. A. Macdonald 279–285

CORRESPONDENCE SECTION

Limitations of the Pearson product-moment correlation by S. W. Coppack 287

**Vol. 79, No. 5 November 1990**

**EDITORIAL REVIEW**

Cell membrane abnormalities and the regulation of intracellular calcium concentration in hypertension by A. F. DOMINICZAK and D. F. BOHR 415–423

**RAPID COMMUNICATION**

Epidermal growth factor stimulates synthesis and secretion of mucus glycoproteins in human gastric mucosa by S. M. KELLY and J. O. HUNTER 425–427

Elevated plasma noradrenaline concentrations in patients with low-output cardiac failure: dependence on increased noradrenaline secretion rates by W. T. ABRAHAM, J. HENSEN and R. W. SCHRIER 429–435

Effects of acute and chronic ethanol administration and its withdrawal on the level and binding of somatostatin in rat brain by V. BARRIOS, M. N. RODRIGUEZ-SANCHEZ and E. ARELLA 451–456

Effect of infused branched-chain amino acids on muscle and whole-body amino acid metabolism in man by R. J. LOUARD, E. J. BARRETT and R. A. GELFAND 457–466

Decreased cyclic nucleotide phosphodiesterase activity in human peripheral blood mononuclear cells from elderly women by N. MESKINI, O. MACOVSCHI, A. F. PRIGENT, G. NEMOZ, P. CHAPUY and M. LAPARDE 467–470

Increased plasma histamine levels in uraemic pruritus by F. STOCKENHUBER, R. W. KURZ, K. SERTL, G. GRIMM and P. BALCKE 477–482

Metabolic regulation of renal gluconeogenesis in response to sepsis in the rat by M. S. M. ARDAWI, S. M. KHOJA and E. A. NEWSHOLME 483–490

Contents vii

Systolic wall stress and ventricular arrhythmia: the role of acute change in blood pressure in the isolated working rat heart by M. A. JAMES and J. V. JONES 499–504

Stimulation of active renin release in normal and hypertensive pregnancy by M. A. BROWN, V. C. ZAMMIT and D. ADSETT 505–511

Short-term infusions of insulin, triacylglycerol and glucose do not cause acute increases in plasminogen activator inhibitor-1 concentrations in man by P. J. GRANT, E. K. O. KRUTHEP, C. P. FELLEY, J. P. FELBER and F. BACHMANN 513–516

Blood pressure, heart rate and neuroendocrine responses to a high carbohydrate and a high fat meal in healthy young subjects by D. HESELTINE, J. F. POTTER, G. HARTLEY, I. A. MACDONALD and O. F. W. JAMES 517–522

Vascular hypertrophy, renin and blood pressure in the young spontaneously hypertensive rat by J. J. MORTON, E. C. BEATIE, S. A. GRIFFIN, F. MACPHERSON, F. LYALL and D. RUSSO 523–530

Kinetics of the human lymphocyte Na⁺–H⁺ exchanger by P. STRAZZULLO and M. CANESSA 531–536

Protein turnover in uraemia in the rat by S. B. IRELAND and P. M. STEWART 537–542

Editorial Review

Reappraisal of the Cushing reflex: the most powerful neural blood pressure stabilizing system by C. J. DICKINSON 543–550

Effect of natriuretic agents, vasoactive agents and of the inhibition of metabolism on sodium handling in the isolated perfused kidney of the nephrotic rat by J. D. FIRTH and J. G. G. LEDINGHAM 559–574

Polymorphisms in the gene coding for cholesteryl ester transfer protein are related to plasma high-density lipoprotein cholesterol and transfer protein activity by D. J. FREEMAN, C. J. PACKARD, J. SHEPHERD and D. GAFFNEY 575–581

Effect of polycations on the function of the isolated perfused rat kidney by J. D. FIRTH 591–598

Relationship between the maximum velocity and sodium affinity of the erythrocyte sodium pump and its rate constant in blood by T. H. THOMAS, S. MACPHERSON, V. MOTT and R. WILKINSON 625–630
A serial study of erythrocyte sodium content and sodium pump kinetics in
pregnancy by S. Macphail, T. H. Thomas, R. Wilkinson, J. M. Davison and
W. Dunlop 631–638

Non-invasive assessment of the cardiovascular eicosanoids, thromboxane A₂ and
prostacyclin, in randomly sampled males, with special reference to the influence of
inheritance and environmental factors by Å. Wennmalm, G. Benthin, K. Caidahl,

Effect of dietary protein restriction on renal purines and purine-metabolizing
enzymes in adriamycin nephrosis in rats: a mechanism for protection against acute
proteinuria involving xanthine oxidase inhibition by G. M. Ghiggeri, F. Ginevi,

Tumour necrosis factor-α and endotoxin induce less prostaglandin E₂ production
from hypothalami of rats fed coconut oil than from hypothalami of rats fed maize oil
by D. C. Bibby and R. F. Grimble 657–662

Mucosal peptide hydrolase and brush-border marker enzyme activities in three
regions of the small intestine of rats with experimental uraemia by D. J. Haines,

CORRESPONDENCE SECTION
Linkage disequilibrium prevents precise definition of susceptibility determinants for
idiopathic nephrotic syndrome by D. Jenkins 669–670
