RAPID COMMUNICATION

Ventricular expression and circulating levels of immunoreactive dynorphin in heart transplant recipients by A. Aktionu, K. Sorensen, B. Whitehead, D. Singer and N. Carter 1-4

PAPERS

Early increase in glomerular leucocyte number after a reduction in renal mass: implications for the pathogenesis of glomerulosclerosis by K. P. G. Harris, F. Baker, J. Brown and J. Walls 27-31

Separate effects of urinary chondroitin sulphate and heparan sulphate on the crystallization of urinary calcium oxalate: differences between stone formers and normal control subjects by D. K. Y. Shum and M. D. I. Gohel 33-39

Abnormal urate transport in erythrocytes of patients with idiopathic calcium nephrolithiasis: a possible link with hyperuricosuria by G. Gambaro, M. Vicenti, F. Marchini, A. D'Angelo and B. Baggio 41-44

Variability of cardiovascular and plasma noradrenaline responses to sustained isometric contraction in normal human subjects by M. Vaz, M. V. Shailesh Kumar, R. N. Kulkarni, D. Rodrigues and P. S. Shetty 45-49

Mitogenic events induced by vasopressin in aortic fibroblasts from spontaneously hypertensive rats by D. L. Zhu, T. Herembert and P. Marche 57-61

Pulmonary vascular reactivity and ischaemia–reperfusion injury in the rat by M. Messent, M. J. D. Griffiths and T. W. Evans 71-75

Venous blood arterialization and parameters from the minimal models of glucose disappearance and post-hepatic insulin delivery by I. F. Godsland, C. Felton and V. Wynn 89-95

Hyperproinsulinaemia in impaired glucose tolerance by A. J. Krentz, P. M. Clark, L. Cox and M. Nattrass 97-100
Contents

Changes in the anterior chamber of the eye during acute hypoglycaemia in humans
by D. A. HEPBURN, C. V. CLARK, A. C. H. PELL, B. McIVER and B. M. FRIER 101-104

Abnormalities in skeletal muscle metabolism in cyanotic patients with congenital heart

disease: a 31P nuclear magnetic resonance spectroscopy study by I. ADATIA, G. J. KEMP,
D. J. TAYLOR, G. K. RADD, B. RAJAGOPALAN and S. G. HAWORTH 105-109

Diffusion of polyethylene glycol-400 across lipid barriers in vitro by T. H. IQBAL, K. O. LEWIS
and B. T. COOPER 111-115

SUPPLEMENT 29
Communications for the Spring Meeting of the Medical Research Society on 21 and 22 April
1993 at University College Hospital, Medical School 1p-42p

Volume 85, part 2 August 1993

GLAXO/MRS YOUNG INVESTIGATOR PRIZE
A novel recombinant adenovirus vector expressing a flavivirus non-structural protein protects
against lethal flavivirus challenge by S. C. JACOBS 117-122

PAPERS
Renal functional response to ischaemic renal failure in chronic hypoxic rats by C. F. CHEN 123-127

A novel computer-driven, servo-controlled fluid replacement technique and its application to
renal function studies in conscious rats by W. J. BURGESS, M. SHALMI, J. S. PETERSEN,
J. PLANGE-RHULE, R. J. BALMENT and J. C. ATHERTON 129-137

Reduced renal papillary plasma flow in non-ascitic cirrhotic rats by N. M. ATUCHA, T. QUESADA
and J. GARCIA-ESTAN 139-145

Circulating angiotensin II and renal sodium handling in man: a dose-response study
by A. R. A. RAHMAN, J. G. MOTWANI, C. C. LANG and A. D. STRUTHERS 147-156

Haemodynamic and hormonal responses to losartan (DuP753/MK954) infusion during cardiac
catheterization in conscious salt-deplete dogs by R. J. MACFADYEN, M. TREE, A. F. LEVER and
J. L. REID 157-163

Atrial natriuretic peptide in the pericardial fluid of patients with heart disease by J. AMANO,
A. SUZUKI, M. SUNAMORI, M. SHICHIRI and F. MARUMO 165-168

Isolation of human cardiac endothelin receptors by a peptide-receptor mobility shift assay
by A. PERSIDIS, A. A. HARCOMBE, A. P. DAVENPORT, R. E. KUC, C. PLUMPTON and
P. L. WEISSBERG 169-173

Magnesium sulphate reverses the carotid vasoconstriction caused by endothelin-1, angiotensin II
and neuropeptide-Y, but not that caused by N[2]-nitro-L-arginine methyl ester, in conscious rats
by P. A. KEMP, S. M. GARDINER, T. BENNETT and P. C. RUBIN 175-181

Angiopeptin inhibition of myointimal hyperplasia after balloon angioplasty of large arteries in
hypercholesterolaemic rabbits by M. H. HOWELL, M. M. ADAMS, M. S. WOLFE, M. L. FOEGH
and P. W. RAMWELL 183-188

Independent, marked associations of alleles of the insulin receptor and dipeptidyl carboxy-
peptidase-I genes with essential hypertension by B. J. MORRIS, R. Y. L. ZEE, L.-H. YING and
L. R. GRIFFITHS 189-195

Influence of counterregulatory hormones, independently of hypoglycaemia, on cognitive
function, warning symptoms and glucose kinetics by D. KERR, M. P. DIAMOND,
W. V. TAMBRLANE, S. KERR and R. S. SHERWIN 197-202

Glutathione peroxidase activity and metabolism of arachidonic acid in peripheral blood
mononuclear cells from elderly subjects by N. MESKINI, G. NEMOZ, P. CHAPUY, P. HAOND,
J. F. PAGEAUX, E. VERICEL, M. LAGARDE and A. F. PRIGENT 203-211

Some pitfalls in the measurement of blood glutathione by D. SCHOFIELD, G. MEI and
J. M. BRAGANZA 213-218

Serum sialic acid and acute-phase proteins in hypertriglyceridaemic patients showing the
Frederickson's type IIB phenotype by S. HAQ, P. TUTT, M. HAQ and M. CROOK 219-222

Modulation of the anabolic effect of synthetic human parathyroid hormone fragment-(1-34) in
the bone of growing rats by variations in the dosage regimen by J.-L. RIOND 223-228
Comparison between continuous and discrete measurements of breathlessness during exercise in normal subjects using a visual analogue scale by H. R. Harty, P. Heywood and L. Adams 229–236
Effect of glucocorticosteroid treatment on β-adrenoceptor subtype function in adipocytes from patients with asthma by S. Reynisdottir, H. Wahrenberg, G. Bylin and P. Arner 237–244

Volume 85, part 3 September 1993

Editorial

TECHNIQUES IN CLINICAL RESEARCH
Assessment of adipose tissue metabolism in man: comparison of Fick and microdialysis techniques by P. Arner and J. Bolow 247–256

GLAXO/MRS YOUNG INVESTIGATOR PRIZE
Defective enzyme-mediated receptor protection: novel mechanisms in the pathophysiology of hypertension by B. R. Walker 257–263

RAPID COMMUNICATION

PAPERS
Human pyruvate dehydrogenase complex as an autoantigen in primary biliary cirrhosis by J. M. Palmer, M. F. Bassendine, O. F. W. James and S. J. Yeaman 289–293
Effects of oral and intravenous calcitriol on serum calcium oxalate saturation in dialysis patients by M. Marangella, C. Vitale, D. Cosiddou, M. Petrarulo and F. Linari 309–314
Ionized and total magnesium levels in cyclosporin-treated renal transplant recipients: relationship with cholesterol and cyclosporin levels by M. S. Markell, B. T. Altura, R. L. Barbour and B. M. Altura 315–318
Relationship between insulin release, antinatriuresis and hypokalaemia after glucose ingestion in normal and hypertensive man by A. Natale, A. Quiones Galvan, D. Santoro, N. Pecori, S. Taddei, A. Salvetti and E. Ferrannini 327–335
Responses of tissue protein synthesis to nutrient intake in rats exposed to interleukin-1β or turpentine by P. E. Ballmer, M. A. McNurlan, I. Grant and P. J. Garlick 337–342
Vasodilatory action of the calcium antagonist amlodipine on large and resistance pulmonary arteries from normoxic and chronically hypoxic rats by P. A. Woodmansey, F. Zhang, K. S. Channer and A. H. Morice

Validity of peak expiratory flow rate variability for the diagnosis of asthma by J. P. Jamison and R. K. McKinley

Volume 85, part 4 October 1993

EDITORIAL REVIEW
Interpretation of oxygen and carbon dioxide exchange across tissue beds in vivo by K. N. Frayn, P. Lund and M. Walker 373–384

RAPID COMMUNICATION

PAPERS
Effect of inhalation of 30% nitrous oxide on spectral components of heart rate variability in conscious man by D. C. Galley, P. D. Tobin, B. J. Robinson and T. Corfiatis 389–392

Is receptor cross-regulation in human heart caused by alterations in cardiac guanine nucleotide-binding proteins? by A. Ferro, C. Plumpton and M. J. Brown 393–399

Cardiovascular and sympatho-adrenal responses to mental stress in primary hypertension by M. Lindqvist, T. Kahng, A. Melcher and P. Hjemdahl 401–409

Expression of the three endothelin genes and plasma levels of endothelin in pre-eclamptic and normal gestations by L. P. McMahon, C. W. G. Redman and J. D. Firth 417–424

Effects of decreased glutamine supply on gut and liver metabolism in vivo in rats by S. Heeneman and N. E. P. Deutz 437–444

Effect of chronic low-dose arginine vasopressin infusion on body fluid homeostasis during adaptation from a high- to a low-sodium diet in normal man by M. Sutters, D. J. S. Carmichael, S. L. Lightman and W. S. Peart 465–470

Natriuretic response to head-out immersion in humans with recent kidney transplants by T. J. Rabelink, K. A. van Tilborg, R. J. Hené and H. A. Koomans 471–477

Determinants of the renal clearance of exogenous lithium in a large sample of a white male working population by F. P. Cappuccio and P. Strazzullo 479–485

Effect of noradrenaline on renal sodium and water handling in euhydrated and overhydrated man by C. C. Lang, A. R. Rahman, D. J. K. Balfour and A. D. Struthers 487–494

Can ultrafiltration occur with a hypo-osmolar solution in peritoneal dialysis?: the role for 'colloid' osmosis by C. D. Mistry and R. Gokal 495–500
TECHNIQUES IN CLINICAL RESEARCH
Culture techniques and their applications to studies of vascular smooth muscle by J. H. Campbell and G. R. Campbell 501–513

GLAXO/MRS YOUNG INVESTIGATOR PRIZE
CD45RA⁺ T cells: not simple virgins by L. Lightstone and J. Marvel 515–519

RAPID COMMUNICATION
A novel antiserum specific to apolipoprotein B-48: application in the investigation of postprandial lipidaemia in humans by A. S. Peel, A. Zampelas, C. M. Williams and B. J. Gould 521–524

PAPERS
Insulin resistance of stress: sites and mechanisms by L. S. Brandi, D. Santoro, A. Natali, F. Altonome, S. Baldi, S. Frascerra and E. Ferrannini 525–535

Relationship between markers of endothelial dysfunction, oxidant injury and tubular damage in patients with insulin-dependent diabetes mellitus by M. Yaoob, A. W. Patrick, P. McClelland, A. Stevenson, H. Mason, M. C. White and G. M. Bell 557–562

Tumour necrosis factor-α, resting energy expenditure and cachexia in cystic fibrosis by J. S. Elborn, S. M. Cordon, P. J. Western, I. A. Macdonald and D. J. Shale 563–568

Induction of enhanced responsiveness of human articular chondrocytes to extracellular ATP by tumour necrosis factor-α by W. S. Leong, R. G. G. Russell and A. M. Caswell 569–575

Impact of treatment with acetylsalicylic acid on the proaggregatory effects of adrenaline in vitro in patients with stable angina pectoris: influence of the anticoagulant by N. H. Wallen, C. Held, N. Rehnqvist and P. Hjemdahl 577–583

Cell membrane microviscosity and Ca²⁺-Mg²⁺-ATPase activity do not contribute to hypertension in the spontaneously hypertensive rat model by R. I. Norman and N. Achall 585–591

Rat renal, aortic and pulmonary endothelin-1 receptors: effects of changes in sodium and water intake by H. Michel, A. Backer, H. Meyer-Lehnert, I. Migas and H. J. Kramer 593–597

Control of sodium excretion in patients with cranial diabetes insipidus maintained on desamino-[8-D-arginine]vasopressin by M. Sutters, C. Brace, E. Hatfield, A. Whitehurst, S. L. Lightman and W. S. Peart 599–606

Changes in renal function in acute experimental pancreatitis in rats: a therapeutic role for somatostatin by M. Gonzalez-Rubio, C. Garcia-Escribano, M. L. Diez-Marques, I. Arribas, P. Martínez-Onsurbe, M. Rodríguez-Puyol and D. Rodríguez-Puyol 615–621

Modulation of small-intestinal secretion and absorption in chronic vitamin E deficiency: studies in rat jejunum in vitro by K. J. Lindley, D. P. R. Muller and P. J. Milla 629–635

Physiological determinants of inspiratory effort sensation during CO₂ rebreathing in normal subjects by J. E. Clague, J. Carter, M. G. Pearson and P. M. A. Calverley 637–642

Extracellular volume expansion inhibits antiuretic hormone increase during positive end-expiratory pressure in conscious dogs by G. Kaczmarczyk, D. Jorres, R. Rossaint, M. Krebs, V. Unger and K. Falke 643–649

CORRESPONDENCE
Endothelin peptides as local hormones and their roles in health and disease? by A. Haq 659
EDITORIAL REVIEW

Non-angiotensin effects of angiotensin-converting enzyme inhibitors by W. Sunman and
P. S. Sever 661–670

GLAXO/MRS YOUNG INVESTIGATOR PRIZE

Role of α2-adrenoceptors and imidazoline-binding sites in the control of insulin secretion
by S. L. F. Chan 671–677

PAPERS

Indomethacin stimulates basal glucose production in humans without changes in concentrations
of glucoregulatory hormones by E. P. M. Crossmit, J. A. Romijn, E. Endert and
H. P. Sauerwein 679–685

Inhibition of nitric oxide synthesis in forearm vasculature of insulin-dependent diabetic patients:
blunted vasoconstriction in patients with microalbuminuria by T. G. Elliott,

Occurrence of presyncope in subjects without ventricular innervation by J. T. Lightfoot,
S. A. Rowe and S. M. Fortney 695–700

Brisk walking and serum lipoprotein variables in formerly sedentary men aged 42–59 years
by D. J. Stensel, A. E. Hardman, K. Brooke-Wavell, D. Vallance, P. R. M. Jones,
N. G. Norga and A. F. Winder 701–708

Hydrogen peroxide generation in a model paediatric parenteral amino acid solution
by V. Brawley, J. Bhattach and W. B. Karp 709–712

Renal uric acid handling in non-insulin-dependent diabetic patients with elevated glomerular
filtration rates by A. Golik, J. Weissgarten, D. Cotaui, N. Cohen, R. Zaidenstein,
Y. Ramot, Z. Averbukh and D. Modai 713–716

Role of haematocrit in mediating the actions of chronic erythropoietin treatment on blood
pressure and renal haemodynamics in the rat by C. Huang, G. Davis and E. J. Johns
717–724

Effects of haemodialysis and continuous ambulatory peritoneal dialysis on abnormalities of ion
transport in vivo in patients with chronic renal failure by C. Brearley, J. K. Aronson,
N. A. Boon and A. E. G. Raine 725–731

Renal tubular protein degradation of radiolabelled aprotinin (Trasylol) in patients with chronic
renal failure by R. Rustom, J. S. Grime, P. Maltby, H. R. Stockdale, M. J. Jackson,
M. Critchley and J. M. Bone 733–736

Change in macromolecular composition of interstitial fluid from swollen arms after breast
cancer treatment, and its implications by D. O. Bates, J. R. Levick and P. S. Mortimer
737–746

Interactions of hydrogen peroxide with interleukin-6 and platelet-derived growth factor in
determining mesangial cell growth: effect of repeated oxidant stress by R. J. D'Souza,

Viral infection of bovine bronchial epithelial cells induces increased neutrophil chemotactic
activity and neutrophil adhesion by M. Raz, R. A. Robbins, C. L. Kelling C. S. Stine,
G. D. Leikauf, S. I. Rennard and J. R. Spurzem 753–760

CORRESPONDENCE

Repeatability testing for transcranial Doppler sonography by D. G. Grosset, I. B. Squire,
D. Georgiadis and K. R. Lees 761

Repeatability testing for transcranial Doppler sonography: authors' reply by P. Demolis,
S. Chalon and J.-F. Guidicelli 761–762
