

Clinical SCIENCE

C O N T E N T S

COMMENTS

- Does oxidized low-density lipoprotein occur *in vivo*?**
by M. J. Jackson (see accompanying paper pp. 489–495) 393
- Cerebrovascular reactivity measurement using near-infrared spectroscopy**
by D. Grosset (see accompanying paper pp. 497–504) 395

PAPERS

- Importance of glutamine metabolism in murine macrophages and human monocytes to L-arginine biosynthesis and rates of nitrite or urea production**
by C. Murphy and P. Newsholme 397–407
- Renal arginine metabolism in fasted rats with subacute short bowel syndrome**
by C. H. C. Dejong, C. F. M. Welters, N. E. P. Deutz, E. Heineman and P. B. Soeters 409–418
- Studies *in vivo* of ω -gliadins in gluten sensitivity (coeliac sprue disease)**
by A. Ensari, M. N. Marsh, K. J. Moriarty, C. M. Moore, R. J. Fido and A. S. Tatham 419–424
- Isolation and characterization of the viscous, high-molecular-mass microbial carbohydrate fraction from faeces of healthy subjects and patients with Crohn's disease and the consequences for a therapeutic approach**
by J. G. H. Ruseler-van Embden, L. M. C. van Lieshout, D. J. Binnema and M. P. Hazenberg 425–433
- Inhibition of renal 11 β -hydroxysteroid dehydrogenase *in vivo* by carbenoxolone in the rat and its relationship to sodium excretion**
by K. J. Sewell, D. G. Shirley, A. E. Michael, A. Thompson, D. P. Norgate and R. J. Unwin 435–443
- A comparison of the development of renal hypertension in male and female rats**
by R. Okuniewski, E. A. Davis, B. Jarrott and R. E. Widdop 445–451
- Arrhythmogenic effect of ventriculography in patients with left ventricular dilation and/or hypertrophy**
by A. S. Serafi, S. J. Evans and J. V. Jones 453–458
- Administration of albumin to patients with sepsis syndrome: a possible beneficial role in plasma thiol repletion**
by G. J. Quinlan, M. P. Margaron, S. Mumby, T. W. Evans and J. M. C. Gutteridge 459–465
- Porcine hepatic response to sepsis and its amplification by an adrenergic receptor α_1 agonist and a β_2 antagonist**
by D. Tighe, R. Moss and D. Bennett 467–478

Randomized clinical trial comparing the effectiveness of two dietary interventions for patients with hyperlipidaemia

by C. Ní Mhurchú, B. M. Margetts and V. Speller

479–487

Identification of oxidized low-density lipoprotein in human serum by NMR spectroscopy

by J. Jankowski, J.-R. Nofer, M. Tepel, B. Griewel, H. Schlüter, G. Assmann and W. Zidek

489–495

Evaluation of potential factors affecting the measurement of cerebrovascular reactivity by near-infrared spectroscopy

by R. Totaro, G. Barattelli, V. Quaresima, A. Carolei and M. Ferrari

497–504

Contractile response of isolated human hepatic arteries to α -adrenoceptor agonist is not impaired in patients with cirrhosis

by P.W. F. Hadoke, J. F. Dillon, T. G. John, S. W. Walker, P. C. Hayes and B. C. Williams

505–511

Inhaled corticosteroid therapy reduces the early morning peak in cortisol and aldosterone

by A. M. Wilson, E. J. Sims, A. D. Struthers and B. J. Lipworth

513–517
