**Comments**

**Cardiovascular effects of sex hormones**

by H. Teede and B. P. McGrath

First published on the Internet 14 June 1999

1–3

**Blood coagulation, fibrinolysis and exercise**

by D. L. Traber

First published on the Internet 15 June 1999

117–118

**Endothelial cell damage and the development or progression of atherosclerosis**

by A. D. Blann

First published on the Internet 16 June 1999

119–121

**Review**

**Role of nitric oxide in the regulation of cardiovascular autonomic control**

by S. Chowdhary and J. N. Townend

First published on the Internet 21 May 1999

5–17

**Rapid Communication**

**Effect of nebulized epoprostenol (prostacyclin) on exhaled nitric oxide in patients with pulmonary hypertension due to congenital heart disease and in normal controls**

by I. A. Forrest, T. Small and P. A. Corris

First published on the Internet 1 June 1999

99–102

**Papers**

**Gender differences in the endothelial regulation of α2-adrenoceptor-mediated contraction in the rat aorta**

by N. Tejera, G. Balfagón, J. Marin and M. Ferrer

First published on the Internet 21 May 1999

19–25

**Activation of haemostasis by exercise, mental stress and adrenaline: effects on platelet sensitivity to thrombin and thrombin generation**

by N. H. Wallén, A. H. Goodall, N. Li and P. Hjemdahl

First published on the Internet 24 May 1999

27–35

**Endothelial haemostatic factors are associated with progression of urinary albumin excretion in clinically healthy subjects: a 4-year prospective study**

by P. Clausen, B. Feldt-Rasmussen, G. Jensen and J. S. Jensen

First published on the Internet 21 May 1999

37–43
Contractile properties of rat skeletal muscles following storage at 4°C
by E. P.A. van der Heijden, A. B.A. Kroese, R.W. Stremel, P. R. Bar, M. Kon and P. M. N. Werker 45-57
First published on the Internet 21 May 1999

Phagocyte functions in stressed rats: comparison of modulation by glutamine, arginine and ornithine 2-oxoglutarate
First published on the Internet 21 May 1999

Effect of externally applied focused acoustic energy on clot disruption in vitro
by S. Westermark, H. Wiksell, H. Elmqvist, K. Hultenby and H. Berglund 67-71
First published on the Internet 21 May 1999

Hypophosphatasia: diagnostic application of linked DNA markers in the dominantly inherited adult form
by S. J. Iqbal, D. S. Plaha, G. H. Linforth and R. Daigleish 73-78
First published on the Internet 1 June 1999

Changes in muscle strength in women following the menopause: a longitudinal assessment of the efficacy of hormone replacement therapy
by J. P. Greeves, N. T. Cable, T. Reilly and C. Kingsland 79-84
First published on the Internet 1 June 1999

Effects of treatment of rheumatoid arthritis patients with an antibody against tumour necrosis factor \( \alpha \) on reticuloendothelial and intrapulmonary granulocyte traffic
First published on the Internet 1 June 1999

The renal endothelin system in the Prague hypertensive rat, a new model of spontaneous hypertension
by V. Vogel, A. Bäcker, J. Heller and H. J. Kramer 91-98
First published on the Internet 1 June 1999

Altered cardiovascular haemodynamics and baroreceptor–heart rate reflex in adult sheep after prenatal exposure to dexamethasone
First published on the Internet 1 June 1999

Elevated activity of semicarbazide-sensitive amine oxidase in blood from patients with skeletal metastases of prostate cancer
by J. Ekblom, J. Grönvall, B. Lennernäst, S. Nilsson, H. Garpenstrand and L. Oreland 111-115
First published on the Internet 4 June 1999

Human placental nitric oxide synthase activity is not altered in diabetes
by J. L. di lulio, N. M. Gude, R. G. King, C. G. Li, M. J. Rand and S. P. Brennecke 123-128
First published on the Internet 15 June 1999

SUPPLEMENT 41
Communications for the Spring Meeting of the Medical Research Society held on the 19 May 1999 at the Royal College of Physicians, London 1P-15P
