Insulin resistance and hypertension: is impaired arterial baroreceptor sensitivity the missing link? 
by P. J. Weston (see accompanying paper pp. 129–136) 
First published on the Internet 4 January 2000

Antenatal glucocorticoid therapy: a caveat to the applause 
by J. R. Seckl (see accompanying paper pp. 137–142) 
First published on the Internet 4 January 2000

Oxygenation of the brain at altitude 
by J. S. Milledge (see accompanying paper pp. 159–164) 
First published on the Internet 11 January 2000

Steroid hormone receptor expression and action in bone 
by R. Bland 
First published on the Internet 31 January 2000

Age-related changes in microvascular permeability: a significant factor in the susceptibility of children to shock? 
First published on the Internet 31 January 2000

Effects of insulin on the cardiac autonomic nervous system in insulin-resistant states 
by G. Paolisso, D. Manzella, M. R. Rizzo, M. Barbieri, G. Varricchio, A. Gambardella and M. Varricchio 
First published on the Internet 4 January 2000

Antenatal corticosteroid therapy and blood pressure at 14 years of age in preterm children 
by L. W. Doyle, G. W. Ford, N. M. Davis and C. Callanan 
First published on the Internet 4 January 2000

Enzyme load in pancreatic acinar cells is increased in the early stages of acute pancreatitis induced by duct obstruction in rats 
by A. Uruñuela, M. A. Manso, R. Mª Pinto, A. Orfao and I. de Dios 
First published on the Internet 4 January 2000
Calcium oxalate crystallization kinetics studied by oxalate-induced turbidity in fresh human urine and artificial urine
by J. P. Kavanagh, L. Jones and P. N. Rao
First published on the Internet 6 January 2000
151-158

Cerebral oxygenation at high altitude and the response to carbon dioxide, hyperventilation and oxygen
by C. H. E. Imray, S. Brearey, T. Clarke, D. Hale, J. Morgan, S. Walsh, A. D. Wright and the Birmingham Medical Research Expeditionary Society
First published on the Internet 11 January 2000
159-164

Hepatic sugar phosphate levels reflect gluconeogenesis in lung cancer: simultaneous turnover measurements and 31P magnetic resonance spectroscopy in vivo
First published on the Internet 19 January 2000
167-174

Abnormal magnesium status in patients with cardiovascular diseases
by S. Sasaki, T. Oshima, H. Matsuura, R. Ozono, Y. Higashi, N. Sasaki, T. Matsumoto, Y. Nakano, A. Ueda, A. Yoshimizu, S. Kurisu, M. Kambe and G. Kajiyama
First published on the Internet 11 January 2000
175-181

Chylomicron-remnant-induced foam cell formation and cytotoxicity: a possible mechanism of cell death in atherosclerosis
by K. C.-W. Yu and J. C. L. Mamo
First published on the Internet 11 January 2000
183-192

Noradrenaline and Nω-monomethyl-L-arginine (L-NMMA): effects on haemodynamics and regional blood flow in healthy and septic sheep
by M. Booke, F. Hinder, R. McGuire, L. D. Traber and D. L. Traber
First published on the Internet 11 January 2000
193-200

Reproducible assessment of vaginal and rectal mucosal and skin blood flow: laser doppler fluximetry of the pelvic microcirculation
by A. V. Emmanuel, M. A. Kamm and R. W. Beard 11 January 2000
201-207

CORRESPONDENCE

Forearm plethysmography: does the right arm know what the left is doing?
First published on the Internet 19 January 2000
209-210

SUPPLEMENT 42

Communications for the Autumn Meeting of the Medical Research Society on 11 and 12 November 1999 in conjunction with the Science and Medicine Conference at the Royal College of Physicians, London
1P-18P
