COMMENT

Do we need another echo 'window to the cardiovascular system'?

by A. Kelion

149-150

First published on the Internet 17 July 2000

REVIEW

A guardian angel: the involvement of dipeptidyl peptidase IV in psychoneuroendocrine function, nutrition and immune defence

by M. Hildebrandt, W. Reutter, P. Arck, M. Rose and B. F. Klapp

93-104

First published on the Internet 10 July 2000

GLAXO/MRS PRIZE

Organization and reorganization of human swallowing motor cortex: implications for recovery after stroke

by S. Hamdy, J. C. Rothwell, Q. Aziz and D. G. Thompson

151-157

First published on the Internet 20 July 2000

RAPID COMMUNICATION

Transvenous echo Doppler in baboons: a new window to the cardiovascular system

by U. Premawardhana, M. Hoskins and D. S. Celemajer

141-147

First published on the Internet 17 July 2000

PAPERS

Analysis of the candidate genes responsible for non-syndromic cleft lip and palate in Japanese people

by A. Tanabe, S. Taketani, Y. Endo-Ichikawa, R. Tokunaga, Y. Ogawa and M. Hiramoto

105-111

First published on the Internet 10 July 2000

Cardiocirculatory coupling during sinusoidal baroreceptor stimulation and fixed-frequency breathing

by C. Keyl, M. Dambacher, A. Schneider, C. Passino, U. Wegenhorst and L. Bernardi

113-124

First published on the Internet 10 July 2000

Very-low-frequency oscillations in heart rate and blood pressure in periodic breathing: role of the cardiovascular limb of the hypoxic chemoreflex

by D. P. Francis, L. C. Davies, K. Willson, P. Ponikowski, A. J. S. Coats and M. Piepoli

125-132

First published on the Internet 10 July 2000

Induction of osteoclasts from CD14-positive human peripheral blood mononuclear cells by receptor activator of nuclear factor κ B ligand (RANKL)

by G. C. Nicholson, M. Malakellis, F. M. Collier, P. U. Cameron, W. R. Holloway, T. J. Gough, C. Gregorio-King, M.A. Kirkland and D. E. Myers

133–140

First published on the Internet 10 July 2000

CORRESPONDENCE

Circulating vascular endothelial growth factor levels are decreased in patients with chronic hepatitis and liver cirrhosis depending on the degree of hepatic damage

by G. Desideri and C. Ferri

159–160

First published on the Internet 17 July 2000

SUPPLEMENT 43

Communications for the Spring Meeting of the Medical Research Society held on the 22 May 2000 at the Royal College of Physicians, London

1P–23P
